

MEDEZER

repurposing social impact

Harnessing the
untapped potential
of our society to
serve every
Home.

Offering the

HEALTH CARE ASSISTANT PROGRAM

MEDEZER FOUNDATION

At Medezer Foundation we are committed to educating and training the rural youth seeking a career in healthcare. With deep insight into the needs of our ageing population across the country, Medezer's education platform offers homes the best of quality care combined with a motto to serve.

What is unique about our HCA program ?

4 WEEKS ONLINE BASICS

With most rural students finding difficulty clearing their 10th/12th standard education, it is imperative that we design programs that are accessible and easy for teaching the basics of care support being provided for those needing medical care. Our model of conducting classes through our online platform enables our students to access faculty and subject content with minimal fuss.

8 WEEKS OF HOSPITAL/ INSTITUTION INTERNSHIP

Once the students pass the basic assessment on basics, students are then placed for a 8 week internship placement either to our partner Hospital/Care Homes.

CERTIFICATE on completion of full 3 months of training.

Selection Criteria

- Basic knowledge of Mobile/ Computer based learning/ Microsoft Office tools
- 10th or 12th standard pass
- Willing to work in Hospital/Home based environment during internship
- Must be willing to do night shifts
